BACK FROM CONVENTION

M. Nussbaum Returns from Jefferson City Full of Praises for Governor Gardner, Whom He Met.

M. Nussbaum returned Saturday night from Jefferson City, where he attended the Grand Lodge Knights of Pythias as representative of the Maryville lodge. The state meeting was largely attended. Mr. Nussbaum said:

"Governor Gardner is a member of the order and delivered an address to the members which was full of patriotism and Pythianism and which was complimented by all present as the best Pythian address they had ever listened to. Gov. Gardner is highly spoken of by everyone I met and is regarded as the best prospect for a good governor we have had for the last 25 years. I had quite a conversation with him and found him pleasant, courteous and full of business. I shall give the governor all the support I can and hope my large circle of friends do likewise. If we do, we will have Missouri on a solid financial basis of which we all can and will be proud. Let us stand by the governor and help him push the good work along."

NEED NOT REGISTER

COLONEL McNEELY SAYS BAND BOYS ARE IMMUNE

FORMER MEMBERS MUST

Those Who Belonged to the Old Maryville Company Now Mustered Out, Required to Register.

William G. Sawyers, legal adviser of the county board of registration, received the following communication from Col. John D. McNeely, Colonel of the 4th Mo. Infantry, in answer to a recent inquiry as to whether members of the 4th Regiment Band would be required to register.

"Under the ruling of the President, as transmitted to us through the Secretary of War to the Adjutant General of Missouri, the members of the National Guard are not required to register, provided their organization is recognized by the Militia Bureau of the War Department.

"As the Fourth Missouri has always been so recognized, and is now such a regiment, no man belonging to it is required to register, and no man who joins it before June 5th, will be required to register.

Former members of the regiment, who belonged to the old Maryville Company which was mustered out, and who are no longer members of the regiment, are required to register.

"The companies of the regiment in this section of the state are Company A, Tarkio; Company L, at Mound City Band, at Maryville, and Company G, at Bethany. It will be very much appreciated if you will give publicity to this ruling in your county and see that the registration officers are properly instructed. I am inclosing an order from Headquarters National Guard of Missouri, which quotes the ruling of the Provost Marshall General of the United States which holds that they will not be required to register."

REGISTRATION INQUIRIES

Board Cannot Issue Cards at Any Time But on June 5—Other Questions Answered.

Numerous inquiries are being made by members of the local board of registration as to whether they can fill out registration cards at times prior to registration day.

The instructions received do not permit any member of the board to issue registration cards till the morning of June 5, when their duties begin.

Again: Local members of the board have no right under the instructions received, to fill out registration cards for absentees. This duty rests with the County Clerk in this county.

The question of who are absentees has been raised. The instructions on this point reads as follows: "The County Clerk is authorized to record the answers of persons absent from their domiciliary county and to certify to their registration cards." This indicates that those present in their home county on day of registration, must present themselves for registration at their usual voting precincts.

NEW RULES FOR RUSSIANS

When Effective, Army Will Be Most Democratic in Europe—Other Dangers Threaten.

Special to The Democrat-Forum. London, May 29.—Details of the reorganization of army discipline in Russia as outlined by Kerensky were received here today. The new rules will make the Russian army the most democratic in Europe. These regulations are so worded as to include everyone from the commanding generals to the drummer boys.

While the liberties of the Russian soldiers may inspire them to deeds of valor, however, new dangers menace the country. The minister of finance is quoted as saying that only a miracle can prevent the economic collapse of the nation.

PROHIBITION NEED

WAR HAS GIVEN NEW VIEW OF THE VITAL QUESTION.

LIQUOR TAKES FOOD STUFF

Shortage of Food Has Occasioned A Certain Amount of Prohibition On All Warring Nations.

Columbia, Mo., May 29.—"Prohibition has been discussed for many years from the moral standpoint, and the injury which liquor does to the human body. The average prohibitionist, or at least the teetotaler, has been regarded as a crank. The war which has involved practically the entire world has given us a new point of view—one which is well worth the consideration of everyone." Dr. M. P. Ravenel of the department of preventive medicine of the University of Missouri declares. "In fact, it has been forced on us, and will continue to be for some time to come."

"All alcoholic liquors require valuable food stuffs in their manufacture. Beer requires barley, grits and sugar. Whiskey is made from corn, rye, oats, and potatoes, all valuable for food stuffs. Wines are made from grapes, which contains a large amount of sugar and much nutriment.

The shortage of food which the war has occasioned has forced a certain amount of prohibition on all the warring nations. In England, it is estimated that the new order reducing the production of beer by 50 per cent will save annually 286,000 tons of barley, 36,000 tons of sugar and 16,500 tons of grits. While some estimates given in the press at the present time are perhaps exaggerated, it is stated by conservative and reliable economists that prohibition, which is advocated during the period of war, will save enough food stuffs to make 11,000,000 loaves of bread a day. The high cost of living at the present time, and the constantly increasing scarcity, as well as price of food stuffs, makes this a subject well worthy of our most earnest consideration.

"The argument which has been used by some that beer is liquid bread, and that alcohol has food value, is entirely fallacious, as has been proven by the most careful scientific studies in this country and in Europe. Alcohol has its uses, but they are extremely limited as far as human consumption goes. Its manufacture causes the waste of an enormous amount of food stuff which is useful and needed for man as well as for cattle."

BIBLE IS POPULAR

YOUNG MEN CONSULT IT NOW TO FIND THEIR AGES.

ONE ADDS THREE YEARS

Another Goes to Baptismal Record and Takes on an Extra 365 Days of Dignity.

The old family Bible hitherto an unknown title among the list of reading of the majority of the young men of Maryville has again come into its own, thanks to the recently enacted conscription law. Boys who haven't looked at the ancient book since the days of childhood when they leisurely turned its pages to scan the pictures are now consulting it with renewed interest.

This interest is not confined to the stories in Exodus and Dueteronomy but to the family Genesis on the back leaves, where the births of the family are conscientiously recorded. Never were girls more interested than are the boys who are, or think they are, between the ages of 21 and 31.

One Maryville young man in endeavoring to settle a doubt regarding his age betook himself to the Bible and found that he was three years older than he had been represented. Others have found various mistakes in their ages, and strange to say they were scarcely, if ever, in their favor.

Another young man consulted the baptismal records at his church and thereby added another year to his dignity.

LITTLE POODLE RUN OVER.

Baby's Playmate Ventures Into the Street in Way of Big Automobile.

Billy and Baby are two little poodle dogs belonging to Dr. and Mrs. J. H. Todd. They had always played and romped together since babyhood and had never been out of each other's sight, except when asleep.

Today "Baby" is lonesome without her playmate, who was run over by a big automobile out in the street in front of the Todd residence this morning. Why Billy ever ventured out into the street is a mystery, but anyway, he ran onto the pavement and his last cry was the first inkling that Baby had of the sad death that had befallen her playmate.

MISSOURI TO HAVE "CAN DAY."

Jewell Mayes Asks Preservation of "Food Cartridges" June 22.

The increase of canning clubs is also urged.

The most unusual chick story of many years comes from the Dearborn Democrat. Mrs. Laura Harrington has a little rooster-chick which was hatched May 7 and began crowing May 11. He repeated the performance May 12, 13 and 14, crowing three times each day. This phenomenon was witnessed by several of the neighbors, who attest the truth of the statement.

Are Proprietary Medicines Fraudulent
Undoubtedly, there may be some that are, but on the other hand, there are many proprietary remedies that are as standard as any prescription that any present day physician can write, and in thousands of homes you will find these old, reliable remedies in every day use with satisfactory results. Such a medicine is Lydia E. Pinkham's Vegetable Compound, which, for nearly 40 years, has been alleviating the suffering of woman-kind, and overcoming some of the most serious ailments of her sex. If you are suffering from any of the ailments of women, just give this medicine a trial and prove its worth for yourself.

BACK FROM CONVENTION

M. Nussbaum Returns from Jefferson City Full of Praises for Governor Gardner, Whom He Met.

M. Nussbaum returned Saturday night from Jefferson City, where he attended the Grand Lodge Knights of Pythias as representative of the Maryville lodge. The state meeting was largely attended. Mr. Nussbaum said:

"Governor Gardner is a member of the order and delivered an address to the members which was full of patriotism and Pythianism and which was complimented by all present as the best Pythian address they had ever listened to. Gov. Gardner is highly spoken of by everyone I met and is regarded as the best prospect for a good governor we have had for the last 25 years. I had quite a conversation with him and found him pleasant, courteous and full of business. I shall give the governor all the support I can and hope my large circle of friends do likewise. If we do, we will have Missouri on a solid financial basis of which we all can and will be proud. Let us stand by the governor and help him push the good work along."

NEED NOT REGISTER

COLONEL McNEELY SAYS BAND BOYS ARE IMMUNE

FORMER MEMBERS MUST

Those Who Belonged to the Old Maryville Company Now Mustered Out, Required to Register.

William G. Sawyers, legal adviser of the county board of registration, received the following communication from Col. John D. McNeely, Colonel of the 4th Mo. Infantry, in answer to a recent inquiry as to whether members of the 4th Regiment Band would be required to register.

"Under the ruling of the President, as transmitted to us through the Secretary of War to the Adjutant General of Missouri, the members of the National Guard are not required to register, provided their organization is recognized by the Militia Bureau of the War Department.

"As the Fourth Missouri has always been so recognized, and is now such a regiment, no man belonging to it is required to register, and no man who joins it before June 5th, will be required to register.

Former members of the regiment, who belonged to the old Maryville Company which was mustered out, and who are no longer members of the regiment, are required to register.

"The companies of the regiment in this section of the state are Company A, Tarkio; Company L, at Mound City Band, at Maryville, and Company G, at Bethany. It will be very much appreciated if you will give publicity to this ruling in your county and see that the registration officers are properly instructed. I am inclosing an order from Headquarters National Guard of Missouri, which quotes the ruling of the Provost Marshall General of the United States which holds that they will not be required to register."

REGISTRATION INQUIRIES

Board Cannot Issue Cards at Any Time But on June 5—Other Questions Answered.

Numerous inquiries are being made by members of the local board of registration as to whether they can fill out registration cards at times prior to registration day.

The instructions received do not permit any member of the board to issue registration cards till the morning of June 5, when their duties begin.

Again: Local members of the board have no right under the instructions received, to fill out registration cards for absentees. This duty rests with the County Clerk in this county.

The question of who are absentees has been raised. The instructions on this point reads as follows: "The County Clerk is authorized to record the answers of persons absent from their domiciliary county and to certify to their registration cards." This indicates that those present in their home county on day of registration, must present themselves for registration at their usual voting precincts.

NEW RULES FOR RUSSIANS

When Effective, Army Will Be Most Democratic in Europe—Other Dangers Threaten.

Special to The Democrat-Forum. London, May 29.—Details of the reorganization of army discipline in Russia as outlined by Kerensky were received here today. The new rules will make the Russian army the most democratic in Europe. These regulations are so worded as to include everyone from the commanding generals to the drummer boys.

While the liberties of the Russian soldiers may inspire them to deeds of valor, however, new dangers menace the country. The minister of finance is quoted as saying that only a miracle can prevent the economic collapse of the nation.

PROHIBITION NEED

WAR HAS GIVEN NEW VIEW OF THE VITAL QUESTION.

LIQUOR TAKES FOOD STUFF

Shortage of Food Has Occasioned A Certain Amount of Prohibition On All Warring Nations.

Columbia, Mo., May 29.—"Prohibition has been discussed for many years from the moral standpoint, and the injury which liquor does to the human body. The average prohibitionist, or at least the teetotaler, has been regarded as a crank. The war which has involved practically the entire world has given us a new point of view—one which is well worth the consideration of everyone."

Dr. M. P. Ravenel of the department of preventive medicine of the University of Missouri declares. "In fact, it has been forced on us, and will continue to be for some time to come."

"All alcoholic liquors require valuable food stuffs in their manufacture. Beer requires barley, grits and sugar. Whiskey is made from corn, rye, oats, and potatoes, all valuable for food stuffs. Wines are made from grapes, which contains a large amount of sugar and much nutriment.

The shortage of food which the war has occasioned has forced a certain amount of prohibition on all the warring nations. In England, it is estimated that the new order reducing the production of beer by 50 per cent will save annually 256,000 tons of barley, 36,000 tons of sugar and 16,500 tons of grits. While some estimates given in the press at the present time are perhaps exaggerated, it is stated by conservative and reliable economists that prohibition, which is advocated during the period of war, will save enough food stuffs to make 11,000,000 loaves of bread a day. The high cost of living at the present time, and the constantly increasing scarcity as well as price of food stuffs, makes this a subject well worthy of our most earnest consideration.

"The argument which has been used by some that beer is liquid bread, and that alcohol has food value, is entirely fallacious, as has been proven by the most careful scientific studies in this country and in Europe. Alcohol has its uses, but they are extremely limited as far as human consumption goes. Its manufacture causes the waste of an enormous amount of food stuff which is useful and needed for man as well as for cattle."

Miss Todd Returns.

Miss Helen Todd returned last night from Port Arthur, Texas, where she has been teaching the past year. Her mother and sister, Mrs. James Todd and Miss Mabel Todd, who went to Kansas City Saturday morning to meet her, also returned last night.

BIBLE IS POPULAR

YOUNG MEN CONSULT IT NOW TO FIND THEIR AGES.

ONE ADDS THREE YEARS

Another Goes to Baptismal Record and Takes on an Extra 365 Days of Dignity.

The old family Bible hitherto an unknown title among the list of reading of the majority of the young men of Maryville has again come into its own, thanks to the recently enacted conscription law. Boys who haven't looked at the ancient book since the days of childhood when they leisurely turned its pages to scan the pictures are now consulting it with renewed interest.

This interest is not confined to the stories in Exodus and Deuteronomy but to the family Genesis on the back leaves, where the births of the family are conscientiously recorded. Never were girls more interested than are the boys who are, or think they are, between the ages of 21 and 31.

One Maryville young man in endeavoring to settle a doubt regarding his age betook himself to the Bible and found that he was three years older than he had been represented. Others have found various mistakes in their ages, and strange to say they were scarcely, if ever, in their favor.

Another young man consulted the baptismal records at his church and thereby added another year to his dignity.

LITTLE POODLE RUN OVER.

Baby's Playmate Ventures Into the Street in Way of Big Automobile.

Billy and Baby are two little poodle dogs belonging to Dr. and Mrs. J. H. Todd. They had always played and romped together since babyhood and had never been out of each other's sight, except when asleep.

Today "Baby" is lonesome without her playmate, who was run over by a big automobile out in the street in front of the Todd residence this morning. Why Billy ever ventured out into the street is a mystery, but anyway, he ran onto the pavement and his last cry was the first inkling that Baby had of the sad death that had befallen her playmate.

MISSOURI TO HAVE "CAN DAY."

Jewell Mayes Asks Preservation of "Food Cartridges" June 22.

"Can Conservation Day," has been declared in Missouri for Friday, June 22. Jewell Mayes, secretary of the state board of agriculture, sent out the statewide appeal today urging that every glass can, every wide mouthed bottle, every storeware or crockery or porcelain vessel that can be sealed with a top or a cork, or a wooden plug, or paraffin or wax, be recovered and put in shape to be "food cartridges." The increase of canning clubs is also urged.

He repeated the performance May 12, 13 and 14, crowing three times each day. This phenomenon was witnessed by several of the neighbors, who attest the truth of the statement.

Are Proprietary Medicines Fraudulent
Undoubtedly, there may be some that are, but on the other hand, there are many proprietary remedies that are as standard as any prescription that any present day physician can write, and in thousands of homes you will find these old, reliable remedies in every day use with satisfactory results. Such a medicine is Lydia E. Pinkham's Vegetable Compound, which, for nearly 40 years, has been alleviating the suffering of woman-kind, and overcoming some of the most serious ailments of her sex. If you are suffering from any of the ailments of women, just give this medicine a trial and prove its worth for yourself.

Which costs most—painting or waiting?

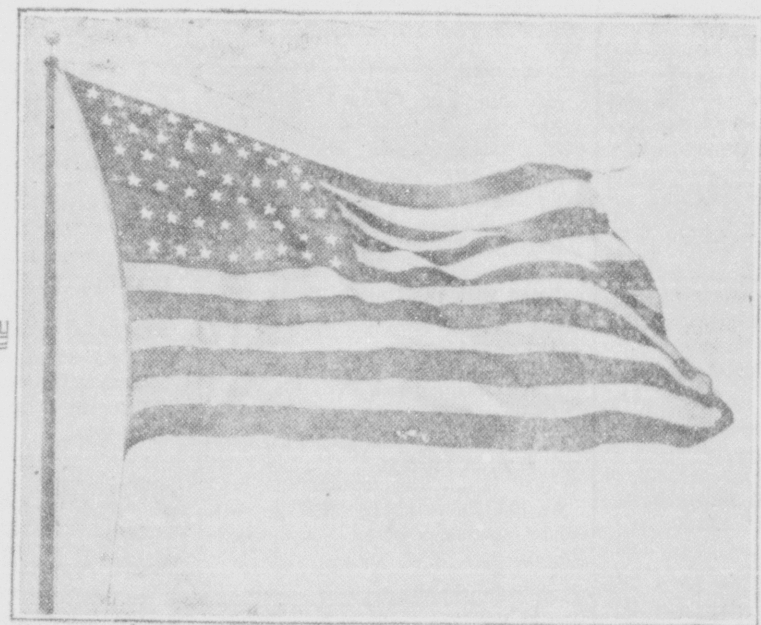

After your house needs painting, every year you wait it will require more paint and more labor to put it in good condition. And every year you wait, your house is worth less. A little paint-money is good paint-insurance.

DEVOE
THE GUARANTEED
LEAD AND ZINC PAINT
FEWER GALLONS - WEARS LONGER

Just as soon as your house needs painting, come in and let us show you how little it will cost you to use DEVOE. We say "DEVOE" because it's absolutely pure. That's why DEVOE takes fewer gallons, wears longer—and costs less by the job or by the year. And that's why we guarantee Devoe without reserve.
